

CV

Artem E. Kniga got his B.Sc. with Honours and M.Sc. at Lomonosov Moscow State University, Biology Department.

Now he's a PhD student at MSU Chemistry Department and a fellow researcher at Emanuel Institute of Biochemical Physics RAS.

He's studying human brain enzymes responsible for N-acetylaspartylglutamate synthesis using methods of bioinformatics and computational chemistry under the supervision of professor A.V. Nemukhin D.Sc. In his spare time, he loves writing scientific software, testing algorithmic trading strategies, and hiking mountains.
