

**Alexey Lagunin** is the Leading Scientist of the Laboratory for Structure–Function-Based Drug Design at the Institute of Biomedical Chemistry (Moscow, Russia) and Head of the Department of Bioinformatics of Medico-Biological Faculty in Pirogov Russian National Research Medical University (Moscow, Russia). He received an M.S. (Doctor Biophysicist, specialty Medical Cybernetics) from Russian State Medicinal University, Moscow, Russia in 1998; Ph.D. in Biochemistry with Prof. Vladimir Poroikov at Institute of Biomedical Chemistry, Russia in 2001; Dr.Sci. in Mathematical Biology and Bioinformatics at Institute of Biomedical Chemistry, Russia in 2012. Alexey Lagunin is a Professor of the Russian Academy of Sciences since 2016. He is a Scientific Head of Magister Program of Biology, profile in Medicinal Bioinformatics in Pirogov Russian National Research Medical University since 2019. Alexey Lagunin is a co-developer of PASS, PharmaExpert, GUSAR software, most chemoinformatics web-applications on way2drug.com and co-author of more than 120 publications in reviewed scientific journals, H-index 29 by Scopus and 28 by Web of Science. Research interests: chemoinformatics, bioinformatics, system biology, in silico toxicology, and computer-aided drug discovery.
